SAVE TIME AND MONEY!!
Walk into College with Credits!

There are a number of options for earning college credits at CPAVTS. **Students should be sure to visit the Student Services office for assistance.** It is also important that students work with the Admissions Office at the school they plan on attending.

### CHS College in the High School:

Also called Dual Enrollment, students are CPAVTS and college students at the same time through HACC or the Pennsylvania College of Technology (PCT). There are many benefits to taking CHS courses while attending CPAVTS:

- Students leave high school with a college transcript.
- Although there is a cost for each HACC credit students earn, it is greatly reduced from HACC's already low tuition cost. There is **NO COST** to students for PCT credits.
- These HACC or PCT credits can also be transferred to many other schools state-wide.
- Even for students that don't intent to pursue further education in their current program area after high school, these credits can count as college elective credits.
- These courses are part of the normal curriculum for Level 3 students, and the course is delivered during normal program time. CHS enrollment is optional, but highly recommended—why do the work and not get the credits?

### POS Program of Study:

All CPAVTS programs are approved by the Department of Education. Because of this, the schools with “POS” listings have agreed to give CPAVTS students credit for those courses when students meet the following requirements:

- Graduate from High School
- Earn a 2.5 GPA in the courses in your program area.
- Earn a score of “Advanced” or “Competent” on the NOCTI exam.

POS articulations are revised on a semi-annual basis. Current POS articulations can be found at [www.collegetransfer.net](http://www.collegetransfer.net).

### ART Local Articulation:

CPAVTS has an independent agreement with these schools. When students successfully complete all or portions of our program, they will receive credit from the college upon admission.

### CERT Certification Credits:

By earning certain certifications through their program, students can obtain credit towards HACC courses.
